Summary

IT infrastructure technician with a B.S. in Computer Science and an AWS Cloud Practitioner certification, administering Microsoft Intune, Microsoft Entra ID, and Microsoft 365 for a 120-user office and ~400 managed endpoints. Scripting and automating with PowerShell and Python; running production cloud environments (AWS, Vercel, Supabase) as a freelance developer. Seeking a Systems Administrator or IT Administrator role.

Professional Experience

IT Infrastructure Technician *Orange, CA*
DOV Group *Sep 2025 - Present*

- Administer Microsoft Intune and Microsoft Entra ID for a 120-employee office and ~400 managed endpoints, including device enrollment, configuration profiles, compliance policies, and application deployments
- Migrated ~150 workstations from local accounts to Entra ID–joined, Intune-managed devices over 8 weeks as part of a small team, achieving CMMC compliance while preserving each user's files and system preferences
- Independently run day-to-day IT operations for the site, including hardware deployment and asset lifecycle tracking, while coordinating with internal IT and company leadership on deployments and infrastructure needs
- Resolve workstation, network, software, hardware, and user-access issues through remote support (NinjaOne RMM, GoTo Assist, Remote Desktop) and in-person troubleshooting

Freelance Web Developer *Duarte, CA*
Self-Employed *May 2025 - Present*

- Deploy and maintain production environments on Vercel and Supabase/PostgreSQL, owning DNS, SSL, hosting, authentication, and database configuration
- Integrate third-party payment, scheduling, and inventory systems for small-business clients and translate requirements into reliable technical solutions

IT Support Intern *Pomona, CA*
Lavner Education *Jun 2025 - Aug 2025*

- Configured and maintained classroom hardware, systems, and network infrastructure; resolved real-time technical issues and escalated site-level problems to central IT

Undergraduate Research Lead (Machine Learning) *Pomona, CA*
Cal Poly Pomona *Apr 2024 - Jun 2026*

- Developed neural networks for aerospace structural health monitoring, training on 19M+ finite-element data points from 480 ANSYS simulations to reach R^2 of 0.99 for stress-field prediction
- Deployed trained models to a browser-based digital-twin application using ONNX for real-time inference and visualization

Technical Skills

- **Endpoint & Identity:** Microsoft Intune, Microsoft Entra ID, Microsoft 365, Active Directory, Windows 10/11
- **Remote Management:** NinjaOne RMM, GoTo Assist, Remote Desktop
- **Networking:** TCP/IP, DNS, DHCP, VLANs, LAN/Wi-Fi troubleshooting
- **Cloud & Infrastructure:** AWS, Linux, Vercel, Supabase/PostgreSQL, DNS/SSL
- **Scripting & Automation:** PowerShell, Python, SQL, JavaScript/TypeScript, Git

Education and Certifications

California State Polytechnic University, Pomona *Pomona, CA*
B.S. Computer Science, Minor in Data Science - GPA 3.40 *Sep 2020 - Apr 2025*
AWS Certified Cloud Practitioner
